

GANYMEDE

FAQ

- **Q. : When picking a 4th Settler tile during an Action 1, I must discard another tile from my player board to make room for it. Do I gain a Basic Action since I discard a Settler tile?**
R. : *No, because you are currently performing Action 1 and not Action 3. The same for using a Shuttle (Action 2) that asks you to discard a Settler tile as an additional cost.*
- **Q. : When gaining an immediate take-off bonus (Row bonus or Reputation maximum), am I allowed to select an empty Ship?**
R. : *Yes, you may choose any Ship on Ganymede, with no restriction.*
- **Q. : What means the bicolor Settler symbol on 2 Mars Shuttles?**
R. : *It means you may recruit a Settler of the indicated color only (blue or purple for the 1st Shuttle, red or yellow for the 2nd one).*
- **Q. : There is a blue Settler on the top Ship on Ganymede. If I use a Mars Shuttle that has 2 red Settlers in its prerequisite and an "Adapt" effect, am I allowed to move those 2 red Settlers to the top Ship on Ganymede, then "adapt" the blue meeple into a red one so there are 3 red Settlers to complete the top Ship?**
R. : *No. The take-off conditions indicated on the right of the 2 Ships spaces are strict conditions you must meet before resolving any effect. In this case, you could move a red Settler to the bottom Ship on Ganymede (if no other red Settler on it) and the other one would be lost in space (see next question).*
- **Q. : After using a Shuttle, what happens to the Settlers who cannot reach their destination (no space on Mars, not eligible on Ganymede) ?**
R. : *These Settlers are lost in space and consequently return to the supply.*
- **Q. : Like Settlers tiles, am I limited to 3 Shuttles of each type?**
R. : *No. You may use any number of Shuttles of the same type.*
- **Q. : Some Ships score 1VP for each Settler of a certain color on your Shuttles. Which Settlers symbols count for this scoring?**
R. : *Only count the Settlers symbols indicated on the top of the Shuttles (their prerequisite). White Settlers symbols do not count for these scorings.*
- **Q. : When can I find an english rules explanation video?**
R. : *You can find it here : <https://boardgamegeek.com/video/183248/ganymede/how-play-ganymede>*
- **Q. : I would like to buy sleeves for this game, which size suits the best?**
R. : *Ganymede cards size is 4,35x6,75cm. So select « **Mini-Euro** » size.*
